11/24/65 Got ribbon copy back from Stern p.m. On giving it to Lynwood Giacomini found Stern's marker, indicating he had read but first three (shortest) chapters. He expressed a desire to read it, although in exactly two months during which he had it he appears to have re ad but little. It was offered to the post in June and they took no initiative in seeing it. I told Stern when I had a copy to spare I'd let him have it.
